About Us

Established in 1992 Five Moons Co. Ltd was founded in the year 1992 with Al-Khobar as its headquarters, with a vision to offer professional Facility Maintenance services to commercial and residential customers throughout the Eastern Province of Saudi Arabia. While the core objectives and motives of the company remain the same even today, decades later Five Moons has expended to serve a larger customer base in Riyadh, Jeddah, Yanbu and Jazan. Becoming a national leader in our Industry.

Our vision is to work towards offering customers an effective way to handle all their Facility needs, From General building Maintenance, (Plumbing, Electrical ,and Air-conditioning), Pest Control, and General cleaning services; whether commercial, industrial, or residential.

Our quality services and commitment has received us due attention within the initial years, and supported by the strong backbone of a reliable customer service we have been able to steer our Company forward in the right direction over the years. In 1995 we have been registered with Saudi Aramco, and SABIC. Certified member ISO 9001:2008 and certification number IND12.4406 UQ, we have also become one of the esteemed members of the National Pest Management Association, Inc. USA.

We have developed our services by obtaining safe and effective pest control and cleaning solution chemicals. Five Moons well-rounded inventory stocks completely safe chemicals (that have received the WHO's approval) and state-of-the-art equipment, and Handyman tools are combined with the expertise of our skilled professionals, are able to deliver unparalleled services to customers.

Mission & Vision

Mission

“To provide quality Maintenance & Facility services that enrich customers’ well being; leading them to live comfortably.”

Vision

“To be the customers’ preferred choice for all their Facility needs by leading in our market through professionalism & superior quality services.”

Our Commitment

Quality Policy

We are committed towards offering premium-quality pest control, general cleaning, plumbing Electrical & Air-conditioning and home repair and facility services to customers. We will employ and maintain a globally recognized Quality Management System by valuing quality considerations and professionalism in every step of our operations, to realize the same.

Environmental Policy

We are committed toward fostering a healthy and safe environment at the workplace. Our values and ethos foster this culture through the different levels of the organization from the top management to the lower technicians. We utilize only safe hazard-free chemicals in our practice to ensure that our services do not harm property or life in any way, employing green cleaning and other eco-friendly methods. We ensure that adequate safety measures are established in different parts of our process, so our staff handle and dispose of chemicals in a safe and environment-friendly way.
